

Beehive oven makes debut at show

AL FRESCO IMPORTS

Al Fresco Imports' BEEHIVE wood-fired oven makes its US debut at the Contra Costa Spring Home & Garden Show, April 1-3.

Never before seen in this country, the BEEHIVE oven brings a new twist to an old idea. This authentic European terra cotta wood-fired

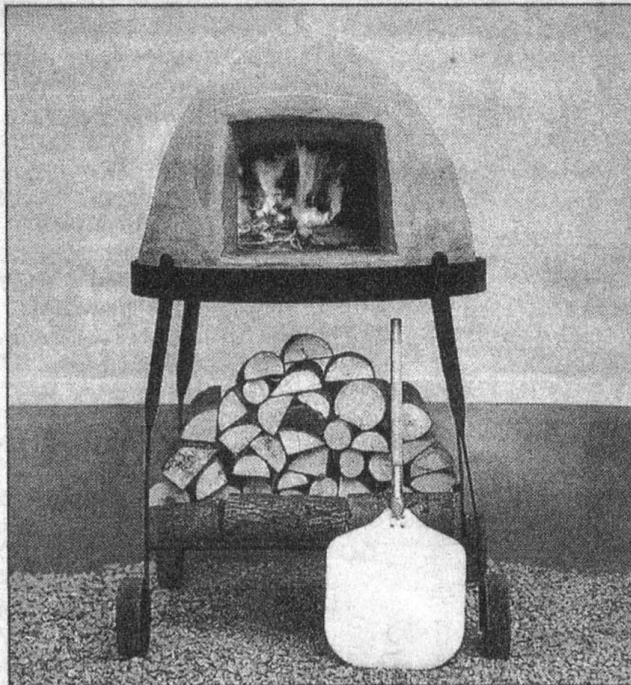

oven, on its portable iron stand, brings the un-matched succulence of wood-fired cooking to any patio or garden.

Fueled by hardwoods, whatever you cook in the BEEHIVE's insulated dome — meats, fish, vegetables or pizzas — is touched by the magic of wood fire. This dynamic

duo of a rustic terra cotta oven, on a sturdy, wrought-iron stand doesn't require any installation, and creates immediate ambiance.

Throw on some logs, and get ready to cook — Al Fresco style.

For more information about the incredible BEEHIVE oven, stop by our booth at the Show, #284 and talk to Fiona Hughes of Al Fresco Imports. Or call 925-672-9547 or email fiona@alfrescoimports.com.

AL FRESCO IMPORTS

THE BEEHIVE OVEN uses hardwoods to cook a variety of foods with tasty results. The oven is portable and made of terra cotta with a wrought-iron stand.
